

Students age 5 through 20, who have not already earned a high school diploma, satisfied graduation requirements for a diploma, or completed high school educational requirements in a foreign country are eligible to attend a CSUSA campus if the student resides in the designated district on a full time basis with their custodial parent or court appointed legal guardian. Eligible students, age 18 or older, who are living on their own, **may** be eligible to enroll in school. Those students shall contact the school administration or registrar for further assistance.
